ART GALLERY

Entering art competitions can be a strong start in proving to yourself that you can be serious about your art. It shows that you are willing to put effort into it, and you think that your art deserves to be recognized more widely. "participating in an art competition takes courage and is an act of faith and belief in ones own talent and strengths. Anyone who simply enters the competition is a winner." The action of entering a competition requires a certain amount of time and thought: a reflection that helps artists identify, establish, and unify their voice and artistic concept. It takes students to a step back, allowing to see beyond individual images and forces them to consider their work as a whole. Keeping these things in mind BVIOT organized "ART Gallery" competition to encourage the students to develop their viewpoint, to allow them to make more informed decisions about what they should be working on next.
